A CARD TO THE PUBLIC

THE ADVERTISEMENT OF THE CARSON
SOAP WORKS when it appears in the
State Journal was composed and written by me
as one of the manager or proprietors of the
said Soap Works. I am surprised at the
advice recently written by a person not having
charge of the educational interests of a certain
portion of our State. Were I connected with in-
stitutions of learning I would not approve the
simple composition of a student of a school of
law or divinity to advance my own interests.

The Eureka Sentinel says: "The Eureka and Palisade Railroad Company is doing a 'land office business' this month. The warehouse is filled to overflowing with all sorts of freight, either awaiting distribution here or shipment to Hamilton, Pioche, Tybo or Belmont. Colonel Mason, the genial freight clerk, is as busy as the Devil at a Mormon love-feast. He informs us that freight is arriving for outside districts faster than the company's teams can haul it away, although they have already twenty-five teams on the road, beside four more which were brought up from the ranch within the last few days. From 50,000 to 60,000 pounds are shipped from the depot daily."

Many are not aware that three or four capitalists of California have built and are now operating successfully a hundred miles of narrow-gauge railroad in the State of Nevada—from Eureka to Palisade, penetrating a rich mining and grazing country for the whole distance. It is one of the most promising narrow-gauge roads in the country, and has been built by California capital.

MALICIOUS LYING.

The Carson Tribune "lies for the very lust of lying," as witness the following:

The Reno Journal and Carson Appeal have flopped. They now declare for Blaine as first choice. Nothing like being on the strong side, you know.

So far as the JOURNAL is concerned it still remains steadfast to friend or foe, and still believes Bristow's nomination would be best for the Republic, yet acknowledging Blaine's strength, and pledging him support should he be the successful nominee. How such action can be construed as "flopping" exists only in the imagery of a man whose political tenets are guided to suit the times.

The Bulletin tells how it is done: A considerable number of small bankers, capitalists and speculators are just now engaged in buying silver and shipping it to California. As there are at present large profits on the transaction, the business will, of course, be prosecuted until it ceases to pay. That is the law of trade. The operator on this side turns his gold into greenbacks, and then changes them for fractional currency, paying a small premium for the exchange. For this fractional currency he is entitled to silver which is payable at any of the Sub-Treasuries. The transaction is usually effected in New York. The operator on going to the Sub-Treasurer asks for a transfer on San Francisco. This is readily granted. The entire cost of transportation or exchange is thus saved. The operator finds his half a million of silver laid down for him in San Francisco without cost, while he is already by large per cent. on the transaction. Now it is plain that he will repeat this operation just as long as he can pick up fractional currency and make a profit on the exchange.

The mines of Arizona will some day claim a large share of public attention. The work of mining in that Territory is now prosecuted under many disadvantages, and yet splendid results in some cases have been realized. Every steamer from the Colorado River brings small consignments of rich bearing ore. The steamer just in brought 23 tons from the Silver King mine, one-third of which assayed \$3,000 per ton. A lot of 45 tons from the same mine by a previous arrival netted \$14,500. The mine has an open cut across the vein 60 feet, and the ore shows an average of \$300 per ton. As equally satisfactory results are obtained from adjacent claims, it is inferred that a considerable body of good pay ore is likely to be developed in that vicinity.

SCHENCK.

The House Committee on Foreign Affairs have submitted their report on the Schenck case and after considering and sifting the mass of testimony, the report concludes that Gen. Schenck, besides having been Director of the Emma Mining Company, was engaged in speculative operations in the stock with Trenor W. Park, vendor of the mine, with Gen. Woodhull, his Secretary of Legation, and upon his own account, to the extent hereinbefore stated, in such manner as subject the name and station of the Minister of the United States to criticism. The Committee therefore find, as to the inquiries announced at the beginning of the report: First, upon the authority of the dispatch of the Secretary of State, that it was not proper for the American Minister at the Court of St. James to connect himself as Director with the Emma Mining Company of London, and this position is confirmed by the authority of Phellimane, who says every State ought, by expressly forbidding their ambassadors to combine engagements in private trade or commerce with the sacred duty of representation, to prevent any question of the kind ever arising. Second, that the relations of General Schenck to the vendors of the Emma mine were of such a character as to cast suspicion upon his motives and subject his action to unfavorable criticism. But the Committee believe he was not guilty of fraud or of any fraudulent intentions in connection with the company or the vendors of the mine. Third, that his subsequent speculative dealings in shares of the company were not compatible with his diplomatic station and the maintenance of the position of honor and usefulness at the court near which he was accredited. The Committee therefore submit the following resolution, and unanimously recommend its passage by the House.

Resolved, That this House condemn the actions of General Robert C. Schenck, United States Minister at the Court of St. James, in becoming a Director of the Emma Silver Mining Company of London, and his operations in connection with shares of said company and the vendors thereof, as ill-advised and unfortunate, and incompatible with the duties of his office and position. We believe the action of the Committee will be endorsed by the country, and in our opinion Mr. Schenck's censure is deservedly earned. It is time that such practices were condemned.

THE ACTION OF THE STATE BOARD OF EDUCATION.

We can hardly account for the action of the Board of Education in changing the readers in our public schools. For ourselves we are opposed to any change until the textbook question now agitating California shall have been decided, recognizing the fact that if any new series should be adopted it would be the Pacific Coast one, but a majority of our Board have decided in favor of Sheldon's, in defiance of the wish of a large number of teachers and parents. There ought to be uniformity between the two States, and what our Board should have done would have been to defer the adoption of a new series of readers until the book war in our Sister State was definitely settled, and then for the sake of uniformity, introduced the same series in this State. We think the action of our State Board of Education was hasty, ill-advised, and not compatible with the welfare of our public schools.

The Senate Committee on Appropriations have struck out of the Legislative, Executive and Judicial Appropriation bill, which is now under consideration by them, the whole of the second, third and fifth sections. These sections provide for a reduction of all salaries of clerks in Executive departments; prohibit political assessments; require the Secretary of the Treasury to make a reduction of ten per cent. in salaries of all custom officers and employees, and prohibit the employment by Government officers of any person except those for whom specific appropriations are made. All these provisions are stricken out, on the ground that they are new legislation and can not properly be enacted in an appropriation bill.

The seal of the city of Tronton bears date 1792.

CURRENT TOPICS.

The committee having in charge the arrangements for the coming celebration in Carson have selected the following gentlemen as officers of the day: Judge Thomas P. Hawley, President of the Day; J. R. Kittrell, Reader of the Declaration of Independence; Col. R. H. Taylor, Post; B. C. Whitman, Orator, and S. T. Swift, Grand Marshal, with power to appoint all deputies. The Committee on Subscriptions reported that they were getting along successfully but had not yet completed their canvass. They declared, however, that they would collect sufficient to make a grand celebration.

The building for the headquarters of the Pacific Coast, put up by California and Nevada, will be dedicated about the middle of June, and a grand banquet will be the closing of the ceremonial, at which Mark Twain will preside. Bret Harte has been invited to write the poem. The building will be finished with woods of California, and will contain a splendid hall for festive gatherings.

It is estimated that ten thousand persons leave San Francisco now every Saturday and Sunday morning for country trips. Some return to their business on Monday; a great many others leave for periods ranging between one week and two months.

The President has issued a proclamation recommending the carrying into effect the late resolution of Congress for the delivery of sketches of the country's progress, at various places, on the Fourth of July next.

After the first of June next the Central Pacific Railroad Company will run six sleepers on the overland passenger trains in order to accommodate the increasing travel.

State Superintendent Kelly says that he has no intention of calling a State Convention of teachers some time in September.

An Anti-Coolie mass meeting is called to meet at the Carson Theater next Tuesday evening.

The Galveston, Texas, News gives a long account of a mammoth enterprise of a company whose principal members are San Franciscans, being the description of a newly erected artificial ice factory of very extensive proportions. The building is eighty feet square and fifty feet high, with walls six feet in thickness. The News says the principal members of the company are Senator J. P. Jones of Nevada, J. D. Caughlin of California, Lloyd Tevis of San Francisco, and J. M. Beath of California, who has charge of the Galveston factory, and who is the inventor of the process used for the manufacture of ice in all the company's factories.

The Carson folks are inclined to be selfish. Last Thursday afternoon John G. Fox started out with a subscription paper to see how much he could raise toward the ten thousand dollar fund required to be subscribed for the location of the Methodist Seminary. He headed the subscription himself with \$400 and visited some of the wealthiest residents; but his success was not very marked. He only obtained subscriptions to the amount of \$2,400, and he feels so discouraged over the fact that he thinks the matter might as well be abandoned.

EVERY PRESIDENT OF THE UNITED STATES who has testified on the subject, has expressed his joy on leaving the Executive Chair. Gen. Grant recently said to a member of the Senate:

"In less than ten months my term of office will expire, and I shall again be a private citizen. I count the intervening days with the same pleasure that I used, when in the graduate class at West Point, to count the days that must pass before I would receive my diploma, and leave the Academy."

The position of President, like many other lofty positions, looks exceedingly desirable and enjoyable before it is attained; but all our Presidents have been as glad to leave the White House as the school boy is to leave the school house.

The National Gold Medal was awarded to Bradley & Rulofsen for the best Photographs in the United States, and the Venus Medal for the best in the world.

NEVADA COUNTY RE-UNION.

GRASS VALLEY, May 26. ED. JOURNAL.—In company with Nels. Hammond, M. J. Smith, Wm. Caughlin, S. E. Welch and Wolf Peyser, your correspondent left Reno on the lightning express train Wednesday night for Colfax. After a very enjoyable ride we arrived in Colfax at 3 o'clock a. m., where we found all the fires out and the hotels closed. Thus left on our own resources we turned our hand at killing time until the little narrow gauge train should leave. Like everything else this weary time had an end at last and we were soon speeding through the

BEAUTIFUL HILLS Of Nevada county. Everything looked so fresh and green. Flowers carpeted the ground in every direction, and seemed such a happy relief from the sage brush which had greeted our eyes so long. We arrived in Grass Valley, where our party separated, some going on to Nevada and some remaining here. We found nothing but "re-union" spoken of, similar I suppose to the "Centennial" of Philadelphia. The novelty of having a railroad has not yet worn off, for the platform is thronged on the arrival of every train. Last night there were at least

FIVE HUNDRED OLD TIMERS On the train, from East and West. Not having enough coaches the flat cars were rigged with seats, and these with the special train, brought them in from Colfax. The reception they received must have been gratifying to the "old boys." The depot was filled to overflowing with people who were there to greet old friends.

A band of music and bonfires added to the life of the occasion. As the trains drew up hearty cheers of welcome were given which were responded to with a will. Then the hand-shaking, caressing, etc., commenced in good earnest. Some were greeted so earnestly that they had to beg their friends to let them alone, they were unable to stand so much of it. It seemed so good to see people who had wandered up and down the earth returning to greet each other on the first festal day given for their benefit. Among the

NOTED ARRIVALS Last night I might mention Governor Pacheco, who though not an old-timer, came to see the fun. Your part of the country is well represented, particularly Virginia City. The ladies are busily engaged

DECORATING THE CARS Before to-day's excursion (I am writing this before the picnic). Flowers and evergreens in profusion are tastefully twined around the cars until it would seem as if Flora herself had given her best attention to it. Triumphant arches are erected over the cars and red white and blue is seen in every direction, in all conceivable shapes. Trains will run every half hour all day long to and from

THE GROVE, Which is midway between Grass Valley and Nevada. Five bands of music will be in attendance, and this with the free tables, pleasure of seeing old friends, hearing the best kind of singing and the best of speakers, with a beautiful day, will give us a time to-day which will be remembered as long as one who participated shall live. A large force of special policemen will enforce order to-day. But I will wait until this afternoon and give a description of the event itself. J. W. M.

SOMETHING NEW.—On and after this date the ladies and gentlemen of Reno and the public in general will find at the Capital Restaurant the following refreshments: Strawberries and Cream. Vanilla Ice Cream. Lemon Ice Cream. Water Ices. Roman Punch. Orange Sherbet. Lemon Sherbet. Frozen Fruit. Tutti Fatti Ice Cream. Cake, etc., etc. 24-34

CONSOLIDATED FOR MINING CO.—Location of principal place of business, Reno, Washoe county, Nevada. Location of works, Peavine Mining District, Washoe county, Nevada. Notice is hereby given that at a meeting of the Board of Trustees held on the 24th day of May, 1876, an assessment (No. 11) of fifty cents per share was levied upon the capital stock of the corporation payable immediately in U. S. gold coin to the Secretary at his office in Reno, Nevada. Any stock upon which this assessment shall remain unpaid on the 24th day of June, 1876, will be delinquent and advertised for sale at public auction and when payment is made before, will be sold on the 24th day of July, 1876, to pay delinquent assessment, together with cost of advertising and expenses of sale. A deduction of ten per cent. will be allowed on all amounts if paid within thirty days, and five per cent. if paid within thirty days. By order of the Board of Trustees. J. H. BURLAND, Sec'y. Reno, May 24, 1876.

AGRICULTURAL IMPLEMENTS—Manning & Duck the well known hardware firm, have added to their usual stock of goods a full line of agricultural implements and machinery, consisting in part of mowers and reapers, headers, horse-powers, threshers, horse rakes, etc., which they are prepared to supply to farmers at a small margin over San Francisco cost. This firm also keep constantly on hand everything in the line of building and shelf hardware, and manufacture to order every description of tin, copper and sheet-iron ware.

FAST TIME—Many of our readers have been informed about the great railroad feat shortly to be made in crossing the Continent, carrying the Jarrett & Palmer theatrical troupe. This special train which leaves New York on or about next Thursday for San Francisco is expected to run over the Truckee Division, from Winnemucca to Truckee, in five hours—a distance of 204 miles. All local trains liable to interfere will be "laid up" until the lightning train passes.

TWO DOLLARS SAVED—We can post the traveling public how to save two dollars in railroad fare by a trip from Reno to San Francisco and return. Buy your tickets to Sacramento. At that place buy a ticket from there to San Francisco and back, via Vallejo, which you can get for six dollars. A single fare each way costs \$4, and thus you save two dollars, which is not to be sneezed at in these hard times.

NARROW ESCAPE—The Depot Hotel had a narrow escape from being destroyed by fire early yesterday morning. It is supposed that rats set fire to some matches that were in the store room. The house was full of smoke, and flames bursting forth, when Howard Mathewson, one of the attaches, saw the danger. A few buckets of water soon extinguished the fire.

THE COLLEGE—A number of citizens met in the M. E. Church last evening for the purpose of taking the initiatory steps toward securing the Methodist College for Reno. Wm Boardman was elected Chairman of the meeting, and Mr. J. F. Alexander acted as Secretary. The subject was fully discussed, and the conclusion arrived at was that Reno should and would have that college.

INQUEST—The Coroner's inquest yesterday revealed no new facts in connection with the death of J. J. Machin, narrated in the JOURNAL of yesterday. Drs. Hogan and Dawson made a post mortem examination, but could find no traces of poison. The brain was not examined. Had it been a clue might be obtained. The jury brought in a verdict of death from natural causes.

WOOD IS BEING SENT DOWN Mackay & Fair's big wood flume at the rate of 500 cords per day. At the lower mill there is but little snow, but at the upper one and above on the mountain-side snow still lies to a great depth. There is no lack of water for fluming purposes.

OBSCENE PERSON—An individual, whose appellation stands recorded on the Police Court records as John Doe, was yesterday sentenced to fifteen days in the county jail by Judge Gilson. John was guilty of using vulgar and obscene language.

At the Episcopal Church there will be divine service at 11 A. M. and 7 1/2 P. M. to-day. Rev. Mr. Lucas officiating. Sunday school immediately after morning service. All are cordially invited to attend.

BAPTIST SERVICES will be held at the Baptist Church this Sabbath morning and evening at 11 A. M. and 7:30 P. M., Rev. C. L. Fisher pastor.

Rev. J. W. CLARK will preach at the Congregational Church, at 11 o'clock this morning, and in the evening at 7 1/2 o'clock. The Sunday School meets immediately after morning service. All are invited.

HOME INVESTIGATION—The United States Grand Jury met in Carson to-morrow. It is supposed the Carson Mint will be investigated. Washoe county jurors should remember to be on hand.

A FUNNY HORSE RACE.

The Winnemucca *Silver State* published the subjoined particulars of a funny horse race:

Observer writes us from Paradise Valley that a horse race came off there the other day between Col. Ellis and Will Woodburn for \$40 a side, distance 300 yards. The outside betting was pretty lively and some \$250 changed hands on the result. Col. Ellis won the race by 20 feet, and the spectators shouted, "Ellis for Congress next Fall!"

TELEGRAPHIC NEWS.

EASTERN DISPATCHES.

Blacks Hills Prospectors Killed

LINCOLN, Neb., May 27

Private advices announce that the company of adventurers from Cincinnati, which passed through a month ago, known as Camstone's squad, was attacked by Indians near Custer City, a few days ago, and that eleven out of twenty two were killed. They were sons of wealthy Cincinnati men, and went on the trip more for frolic than anything else. The survivors are expected to return in a few days.

Whisky Frauds—Not all For Blaine.

CHICAGO, May 27.

Regarding Munn and his approaching trial, it is said that the sum of \$5,000 used by the ring for him has been traced to a prominent rectifier as trustee, and it is merely a question as to whether it was stolen by the middlemen or went into Munn's hands. It is believed that Munn got the money.

The soft money planks in the recent Illinois Republican Convention are attributed to the enemies of Blaine, and are likely to cause trouble. The *Tribune* of this city and other influential papers of the State are denouncing the platform, savagely, and show a disposition to injure the Republican ticket as much as possible. An influential politician asserts that more than half of the Illinois delegates to Cincinnati will not vote for Blaine under any circumstances.

WESTERN DISPATCHES.

Precautions Against Small Pox—To Be Hanged—Important Purchase—Organization of the Democratic State Central Committee

Miscellaneous News.

The Odd Fellows' Hall Association has finally concluded preliminaries for the purchase of the Lick lot, on the corner of Market and Fourth streets, for \$550,000. A magnificent edifice for the uses of the Order will be erected on the lot.

Chin Mouk Sow, the Chinese double murderer, was yesterday sentenced to be hanged on July 21st. He received his sentence with indifference, only requesting that his friends be allowed to visit him in jail.

The Board of Health is taking every precaution to prevent the spread of small-pox. At a meeting last evening a resolution was adopted to employ twelve physicians to vaccinate all applicants. It was also resolved that hereafter all vessels from other than Coast ports shall anchor in the stream until boarded by the quarantine officers.

The strictures in the daily papers have had the effect of waking the police to the fact that the Dive Ordinance is nightly violated, and, last night, they inaugurated a repressive move, arresting three females and the keeper of a saloon on Dupont street.

The Scandinavians in this city and vicinity, last night, organized an anti-Chinese Club. Resolutions were passed of the usual character, pledging the members against furnishing employment to Chinese or aid to any person who may employ them.

Long John Wentworth, of Chicago, arrived in this city last night.

All the banks in the city will be closed on Tuesday next—Decoration Day.

The Democratic State Central Committee has organized by the election of Peter Donohue, Chairman, and John C. Maynard, Secretary.

Anti-Coolie Meeting—Bernal Heights

Gold Excitement.

SAN FRANCISCO, May 27.

Oakland held a rousing Anti-Coolie meeting last night. Several thousands and people were present, including delegations from here and neighboring towns.

The public schools closed yesterday for a Centennial vacation, lasting until the 10th of July.

The Bernal Heights, the scene of the recent quartz discoveries, was visited by a large number of people, including many California street men. Several additional claims have been staked out, and work will be at once commenced on some of them to test the question. The whole neighborhood is in a state of excitement.
